

VH Effect Editor for Macintosh (Stand alone)

Thank you for your support of Yamaha products.

VH Effect Editor is a software application for the PLG100-VH Modular Synthesis Plug-in System board, which allows complete editing of all parameters through a graphical user interface.

Do not use the platform synthesizer (MOTIF/S80, etc.) while editing the PLG100-VH with this software, as doing so may cause the edited parameters to change.

System requirements

- Computer platform Apple Macintosh PowerPC
 - Operating system Mac OS 8.0 through 9.1 is supported
 - CPU PowerPC 604/100MHz or better
 - Available RAM 13MB or more
- (Virtual Memory should be turned off)
- Free hard disk space 4.5MB
 - Display 256 colors or more, 800 x 600 resolution or higher
